

BUSINESS ANALYST INTERN

LOCATION: SKOPJE

Are you ready to dive into the dynamic world of consulting and work alongside top talent? Join us as a Business Analyst Intern and embark on an exciting journey where you'll collaborate with global clients and engage in cutting-edge projects.

Description:

As a Business Analyst Intern, you'll be at the forefront of research, analysis, and delivery support activities for both client projects and internal initiatives. Here's what you'll be doing:

Main Responsibilities:

- Conduct in-depth research to gather intelligence and data on various market dynamics, industry trends, technological advancements, and other crucial parameters.
- Utilize proven analytical methods such as benchmarking, comparative analysis, and SWOT/PESTLE to derive valuable insights.
- Actively contribute to project delivery as an integral part of our dynamic team.
- Propose innovative solutions based on comprehensive analysis and articulate compelling arguments to support your findings.
- Assist in crafting client presentations and confidently defend your data sources, analytical techniques, and conclusions.
- Uphold high personal standards with meticulous attention to detail.

What We Offer:

- Join a vibrant, cross-functional, and international team filled with young, motivated professionals.
- Learn and grow alongside experienced colleagues who are eager to share their expertise and knowledge.
- Gain exposure to a diverse range of clients worldwide, exploring new cultures and seizing exciting opportunities.
- Enjoy the modern amenities of our Skopje office, fostering a dynamic work environment.
- Benefit from a paid internship with the potential for full-time employment for successful candidates.
- Embrace flexible working hours that prioritise work-life balance and family commitments.
- Experience a culture of appreciation with gifts, celebrations, team-building activities, and CSR initiatives.

Internship Details:

- Internship during the whole year
- Internship duration: 6 - 12 weeks, depending on return to school/university dates.
- Outcome of Internship: Successful completion may result in an offer as a Junior Analyst/Analyst, contingent upon work availability and personal performance during the internship.
- Certificate of Completion: A certificate acknowledging the successful completion of the internship will be provided.
- Fair compensation

Requirements:

- A background in economics, finance, or a technical field, with excellent communication skills.
- Basic analytical thinking skills, capable of understanding and explaining concepts from high-level strategies to detailed data flows.
- Proactive and creative problem-solving abilities, coupled with a willingness to learn and grow independently.
- Knowledge or previous experience in market research and analysis, preferably through internships but not a must.
- Proficiency in MS Office tools is essential.
- Excellent command of the English language, along with additional languages like Arabic/French would be an advantage.

If you see yourself fitting this description, don't hesitate to send your CV to marija.uzunova@salienceconsulting.ae and embark on a rewarding journey with us!
